---

## SUMMARY

**Full Stack Developer** with expertise in Python, Django, HTML, CSS, JavaScript, and React. Passionate about building responsive and scalable web applications while integrating databases and creating clean, efficient code. Continuously learning new technologies to stay ahead in the field.

---

## PROJECTS

### Django Music System – [Ganymede](#)

Built a music streaming application similar to Spotify using Django, with features for user authentication, account management, playlists, and artist following. Utilized Django ORM for efficient handling of database models for users, songs, and playlists.

### Python Bank System – [Bank](#)

Developed a Python-based banking system that allows users to create accounts, deposit and withdraw funds, and check balances. The project includes features for secure transactions and data storage, providing a simple, interactive user experience.

### MySQL Music Database

Created Herzsclag, a comprehensive music database using MySQL to manage artist, song, album, and genre information, with optimized performance for faster data retrieval through indexing and query optimization.

### HRMatrix Project in [Django](#)

**HRMatrix** is a comprehensive HR management system built using **Python** and **Django**. It handles essential HR tasks such as leave management, department and role management, and promotion tracking. The system aims to streamline HR processes and improve organizational efficiency through an intuitive interface.

---

## EXPERIENCE

### Frontend Developer Internship (Chinkara) - 4 Months

- Built and styled responsive web pages using **HTML, CSS, Bootstrap, and JavaScript**.
- Improved **UI/UX by designing** interactive and **user-friendly interfaces**.
- Assisted in website optimization for better performance and accessibility.
- Gained hands-on experience in **frontend development and modern web design practices**.

- **Developed full-stack web applications** using **Python** and **Django**, integrating both frontend and backend technologies for a seamless user experience.
  - **Utilized Django framework** to build, deploy, and manage web applications, ensuring scalability, security, and performance.
  - **Worked with front-end technologies** (HTML, CSS, JavaScript, Bootstrap) to design and implement responsive, user-friendly interfaces.
  - **Implemented database management** with **MYSQL**, designing and optimizing databases to store and retrieve data efficiently.
- 

EDUCATION

Choudhary Charan Singh University, Meerut

2019 –2023

*Bachelor's Degree in Information Technology*

PROFESSIONAL COURSES

ITVEDANT EDUCATION PVT LTD.

KALYAN

Masteri in Full Stack Web Development with Python

2024-Present

SKILLS

- WEB DEVELOPMENT: **HTML, CSS, BOOTSTRAP**
  - PROGRAMMING LANGUAGES: **PYTHON, JAVASCRIPT**
  - DATABASE MANAGEMENT: **MYSQL, SQL, RDBMS**
  - WEB FRAMEWORK: **DJANGO, REACT**
- 

CERTIFICATIONS

- **MASTER IN FULL STACK WEB DEVELOPMENT WITH PYTHON**
- **IBM PYTHON FOR WEB DEVELOPMENT**
- **PYTHON CERTIFICATION**
- **SQL CERTIFICATION**
